

# Quick Start Guide

## Arion

# Vehicle Start Instructions

## 1. Turn the Battery ON

Press the power button located just **below the positive terminal on the battery** to turn it ON (shown on next page).

### Battery Location:

**E22 and E40 models:** Battery is located in the compartment under the front flip seat.

**E42 and E60 models:** Battery is located in the compartment under the middle flip seat.

## 2. Start the Vehicle

After turning the battery ON, **press the Start button on the dash** to power up the vehicle.

For **everyday use**, it is **not necessary** to turn the battery OFF when shutting down the vehicle. Using the dash Start/Stop button is sufficient.

However, for **prolonged periods of non-use**, it is **recommended to turn the battery OFF** by holding the battery power button for 5 seconds to prevent slow discharge and maintain battery health.

Battery ON/OFF Switch

# Vehicle Charging Instructions

## 1. Ensure the Battery is ON:

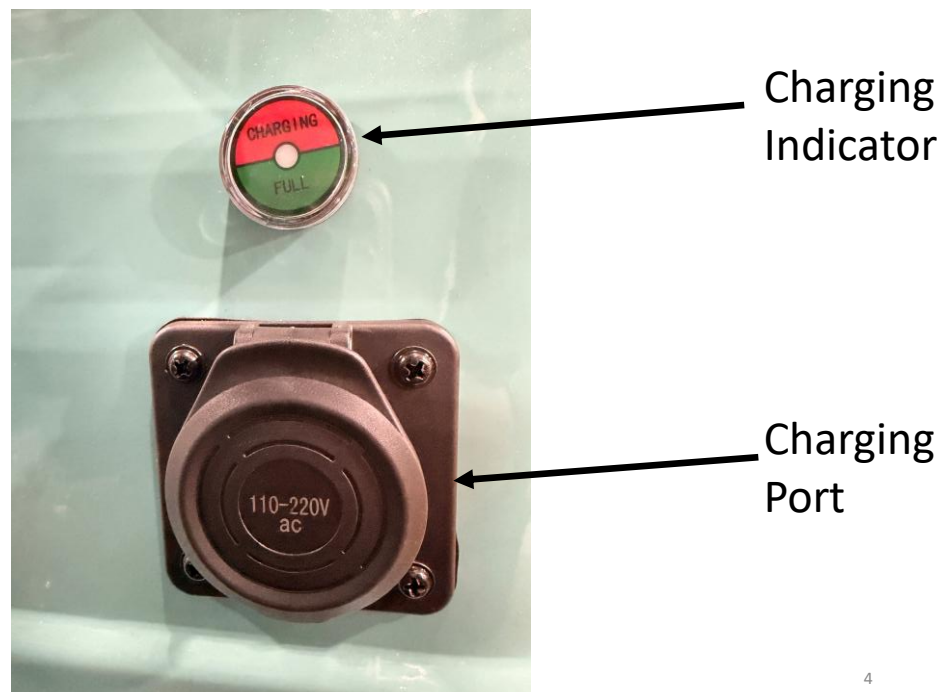

Before charging, confirm that the **battery power button** is turned ON.

## 2. Connect the Charger:

Plug the charging cord into the **vehicle's charging port**.

## 3. Check the Charging Indicator above the Charging Port:

- **Flashing Red Light:** The vehicle is **actively charging**.
- **Solid Green Light:** The battery is **fully charged**.

# App Instructions for controlling Front Grille LED Lights

Download the App using the suitable QR code for your device:

Happy Lighting for Android

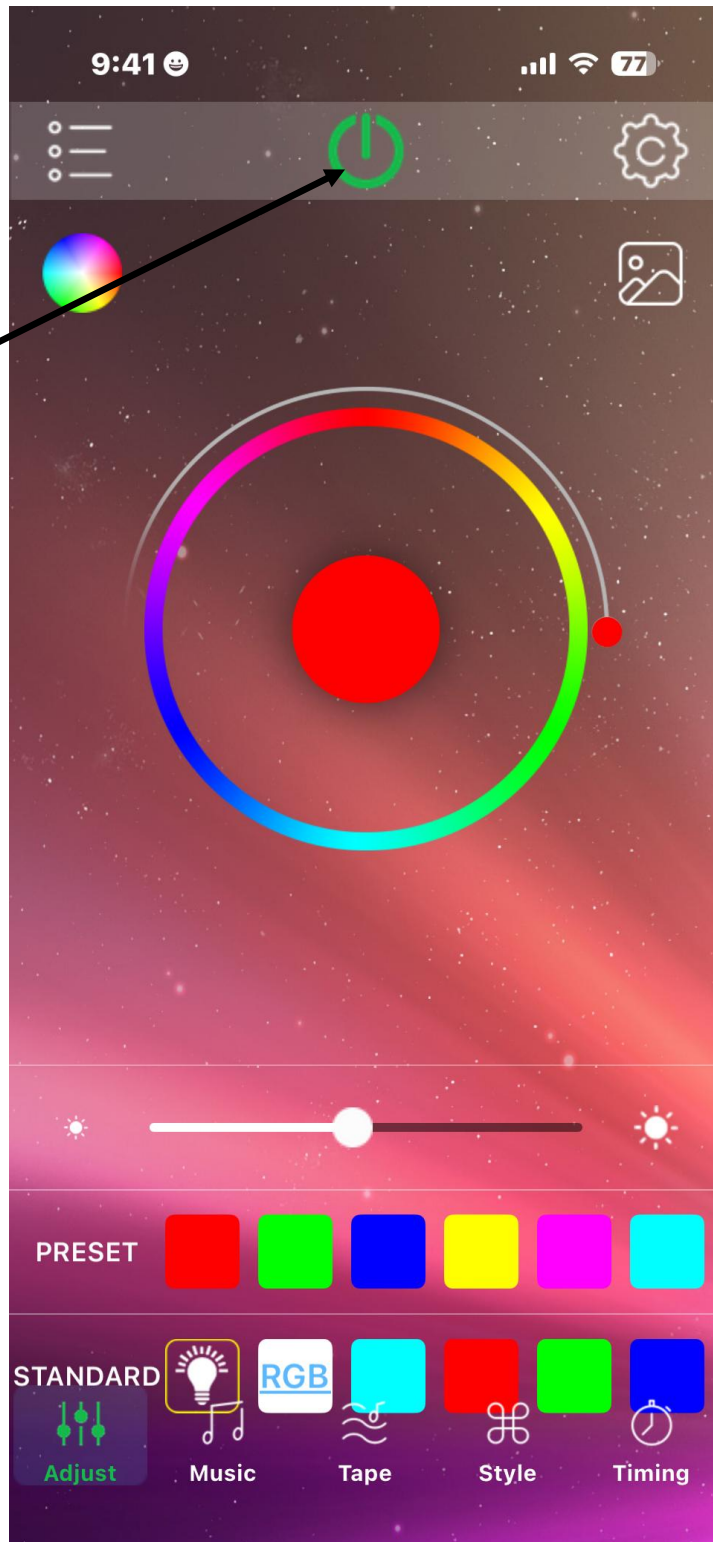

Happy Lighting for iOS

1. Ensure that both the cart and the battery are OFF.
2. Open the Happy Lighting App and make sure that the power button in the app is turned OFF (refer to photo on the next page).
3. Turn the battery and the cart ON.
4. Turn on the power button in the App.
5. Your cart should now be connected to the App automatically.
